

Giant Outdoor Banner Stand

Model#:COS800

Giant outdoor banner stands utilize a simple aluminum framework and plastic bases to create a framework that is tough, easy to assemble and stable enough to be used outdoors in light to moderate wind conditions. Two plastic water tanks make the feet at either side of the unit. Height is adjusted with two telescopic poles between the two sides and springs provide tension. Individual units can be joined together to give bigger advertising space. Ideal for promotions, events, exhibitions and public areas. The base can be filled with water or sand for stability. Comes with 2 carry bags.

Product Features:

- Individual units can be joined together
- Hollow bases for water or sand weighting
- Max width and height: 3 meters x 2.5 meters
