

Chalk Sandwich Board

Model#: TBB500

Chalkboards are built of a high quality, scratch resistant writing surface. Chalkboards become very popular in restaurants, and in retail, particularly in the grocery trade. They are a hallmark in coffee shops, smoothie shops, and other food and restaurant establishments that frequently change menus. Chalkboards provide a more personal feel than commercial signage, and lend themselves to greater artistic expression. This chalkboard is reversible which makes it ideal to promote different messages for different periods of time. You can prepare 2 different signs on the a-board and reverse it when necessary. Chalkboards are designed to be used indoors but can also be used on the sidewalks in perfect outdoor conditions. Not recommended in rain, extreme heat & high winds.

Product Features:

- Board size: 23" x 36"
- can be written on with both chalk and erasable marker
- Pine wood frame
- MDF chalk board
- Folds flat for storage and shipping
- Anti-slip rubber feet
